ITRONIX®

TECHNICAL NOTE	Number	518
DATE: 14-Jul-00	Issue	3

TITLE:	Barcode Reader Compatibility with Husky Products.
ABSTRACT:	Description of recommended barcode reader combination for Husky range.

As a result of extensive testing under normal and extreme environmental conditions, Itronix (UK) have approved the sale of a range of barcode reading products suitable for use. These devices are:

Welch Allyn 3800 Linear LED Scanner
Welch Allyn 6180 Intelligent Light Pen
PSC Powerscan VSD Scanner

The readers are now available as part of the accessories list to all computer types. However, certain combinations of scanner and computer either cannot be used together, or will require certain considerations for a full working day use.

For the recommended combinations and warnings consider the table below:

	HUSKY PRODUCT.			
WAND/SCANNER TYPE.	FC-486	FS/3 (NOTES 2)	FS/2 (NOTES 2)	Hunter 16
Welch Allyn 3800 Linear LED Scanner	NO (NOTES 1)	YES	NO (NOTES 1)	NO (NOTES 1)
Welch Allyn 6180 Intelligent Wand	YES	YES	YES	YES
PSC Powerscan VSD Scanner	YES	YES	YES	YES

NOTES:-

1) The Linear Scanner requires a supply voltage of 5vdc. While the FS3 range can provide this, other products range from 4.5v to 4.75vdc and therefore provide insufficient voltage for the device.

2) Operation strictly recommended with NiCad batteries. Alkaline batteries should be used for emergency only.
